

Overview

At The IT Training Surgery we know that making time for learning new skills to improve your performance can be a challenge. Courses run at your premises and on your own computers.

Who should attend?

Anyone who has never used Photoshop before.

Requirements

You must be very confident in using Windows and a mouse.

Aim

By the end of the course, you will be confident in using the essential features of Photoshop to manipulate images and photographs. You can bring your own scanned images to work on during the Workshop. If you require help with these images, please do not hesitate to contact us for advice. Be prepared for a fun and creative two days!

What will I learn?

In particular you will be able to:

- Create photo montages/composite images
- Produce stunning effects by using layers
- Retouch images / add text to images
- Work with colour
- Be confident when dealing with colour and printing
- Unleash your creative potential!
